"Too much jogging could be a problem!"	
Running is good for our health. A recent study says that running too much is bad	
for us and it doesn't always make our lives longer. A specialist said too much	
running can damage your heart. Long-distance runners and people who never	
exercise can have the same risk of having a heart attack.	
Experts looked at the health of 3,300 runners. Most of them ran over 30	
kilometers a week. Marathon runners had hard parts in their heart. A doctor who	
started running in 1967 is sad. He ran 60 kilometers every week. He thought his	

	heart was strong. Now he has heart problems. He said we should exercise, but	
	not too much.
